Ürün Hakkında! About the Product

Zemini renklendir ve tek aşamada çatlat gitsin. Çok kaygan zeminlerde Universal Çatlatma Astarına ihtiyaç duyabilirsin. Sür bekle sonuç ortada, istersen renklendir.

Çünkü sen de yapabilirsin!

Crackle Relief Paste is a one-component, dimensional, white, crackle paste that creates a unique crackled pattern as it air dries. Simply paint a base colour, allow it to dry and apply the Crackle Paste over the top. Suitable for all porous surfaces. Requires Universal Crackle Primer on smooth surfaces. Tintable and paintable with Cadence acrylic colours. Permanent finish. Can be dried with a hair dryer. The paste will crack as it dries, and the structure and size of cracks depend on the thickness of the paste applied. For larger cracks, apply primer and a thicker paste layer, and for finer cracks, apply a thinner layer.
